IronForge Machinery - Technical Datasheet

IF-E40 Electric Servo Press Brake

Model: IF-E40

Bending Force: 400 kN (40 t)

Bending Length: 1250 mm

Drive: Servo motor + ball screw

Approach Speed: 200 mm/s

Bending Speed: 20 mm/s

Repeatability: ±0.005 mm

Energy Saving: Up to 60% vs. hydraulic

CNC Controller: DELEM DA-58T

Back Gauge Axes: X / R

Noise Level: < 65 dB

Concept project - specifications are for demonstration only.
